Abstract
Under covid-19 Pandemic, it is quite difficult to have a real Exhibition. Virtual Event Platform can provide users a virtual exhibition in their smartphone, tablet, HMD. VEP has three key features, real avatar, 360-degree 8K VR Live Video, Volumetric Video. Visitors in the virtual exhibition world can move seamlessly by using their own avatar, and feel wow experience in virtual booths provided by 360-degree 8K VR Live video, Volumetric Video.

Features
- Users can experience Virtual Events anytime anywhere using many kinds of devices
- Users can move seamlessly by using their own real avatar

Application Scenarios
- Virtual Exhibition
- Virtual sight seeing

Roadmaps
- Utilization of events within the NTT Group and expansion to external companies.

Exhibitors
NTT DOCOMO, INC
